

Discover How Ateb's Time My Meds[®] Med Sync Solution Transforms your Pharmacy into a Healthcare Destination!

Ateb's medication synchronization solution Time My Meds transitions your pharmacy to the Appointment Based Model (ABM) and:

- Provides a significant, measurable impact on driving patient engagement, improving pharmacy performance, & increasing Proportion of Days (PDC) scores
- Uses big data & predictive analytics to pinpoint & identify the most impactful patients to your business
- Streamlines pharmacy workflow & operations
- Optimizes patient satisfaction & improves health outcomes

Solution Benefits

- **Script Growth**
Fill 15-20 incremental prescriptions per patient, per year
- **Adherence**
Improve medication adherence & increase CMS Star Ratings
- **Patient Engagement**
Identify the right patient; for the right intervention; at the right time
- **Revenue Growth**
Increase revenue from current patient base

Driving healthy outcomes for patients, pharmacies, and payers
