

Medical Developments International Compact Space Chambers Now Available

IPC has added compact space chambers from Medical Developments International to our product lineup. Provide your asthma and COPD customers with access to all the items they need to thrive.

MDI Anti-Static Compact Space Chamber Plus products are designed to deliver medication more effectively to the lungs. Their Cross Valve Technology provides low resistance, one-way flow during inhalation to improve drug delivery. The universal base fits most pressurized metered dose inhalers and the transparent chamber allows for direct confirmation of correct use by patients.

MDI Anti-Static Compact Space Chamber Plus items can be ordered from IPC online every day at www.ipcrx.com. Orders must meet a low order minimum to qualify for free shipping.
