# Wheeler Labs COVID-19 Saliva Test Kits

## Wheeler Labs

### The kit that's going to save lives.

Thanks to Wheeler Labs, you can now keep your patients safe without sacrificing their comfort. Your IPC membership gives you access to Wheeler Labs non-invasive COVID-19 saliva test kits! Patients simply collect the saliva sample at home, send it to Wheeler's CLIA-certified state-of-the-art laboratory, and are guaranteed results within 72 hours.

#### Quick Kit Facts

- This is a RT-qPCR saliva nucleic acid COVID-19 test.
- The RT-qPCR test has been granted an Emergency Use Authorization (EUA) from the FDA.
- About half a teaspoon of saliva is needed for the test.
- A positive result is correct 97.1% of the time.
- A negative result is correct 98.2% of the time.
- The kit has a shelf life of two years and should be stored at room temperature.
- Testing is currently not available for people living in AK, CA, HI, MD, NY, PA and RI.
