

BEACON CHANNEL MANAGEMENT

Beacon MFP

December 4, 2025

Introduction to MFP

The Maximum Fair Price (MFP) is a new government established price that applies to specific products and is accessible to certain dispensing entities and Medicare beneficiaries

PROGRAM START	Begins January 1st, 2026.
PRODUCT SELECTION	10 products have been selected for 2026 and 15 products for 2027.
MFP ACCESS	Manufacturers must provide access to the MFP on these drugs for eligible Medicare Part D beneficiaries.

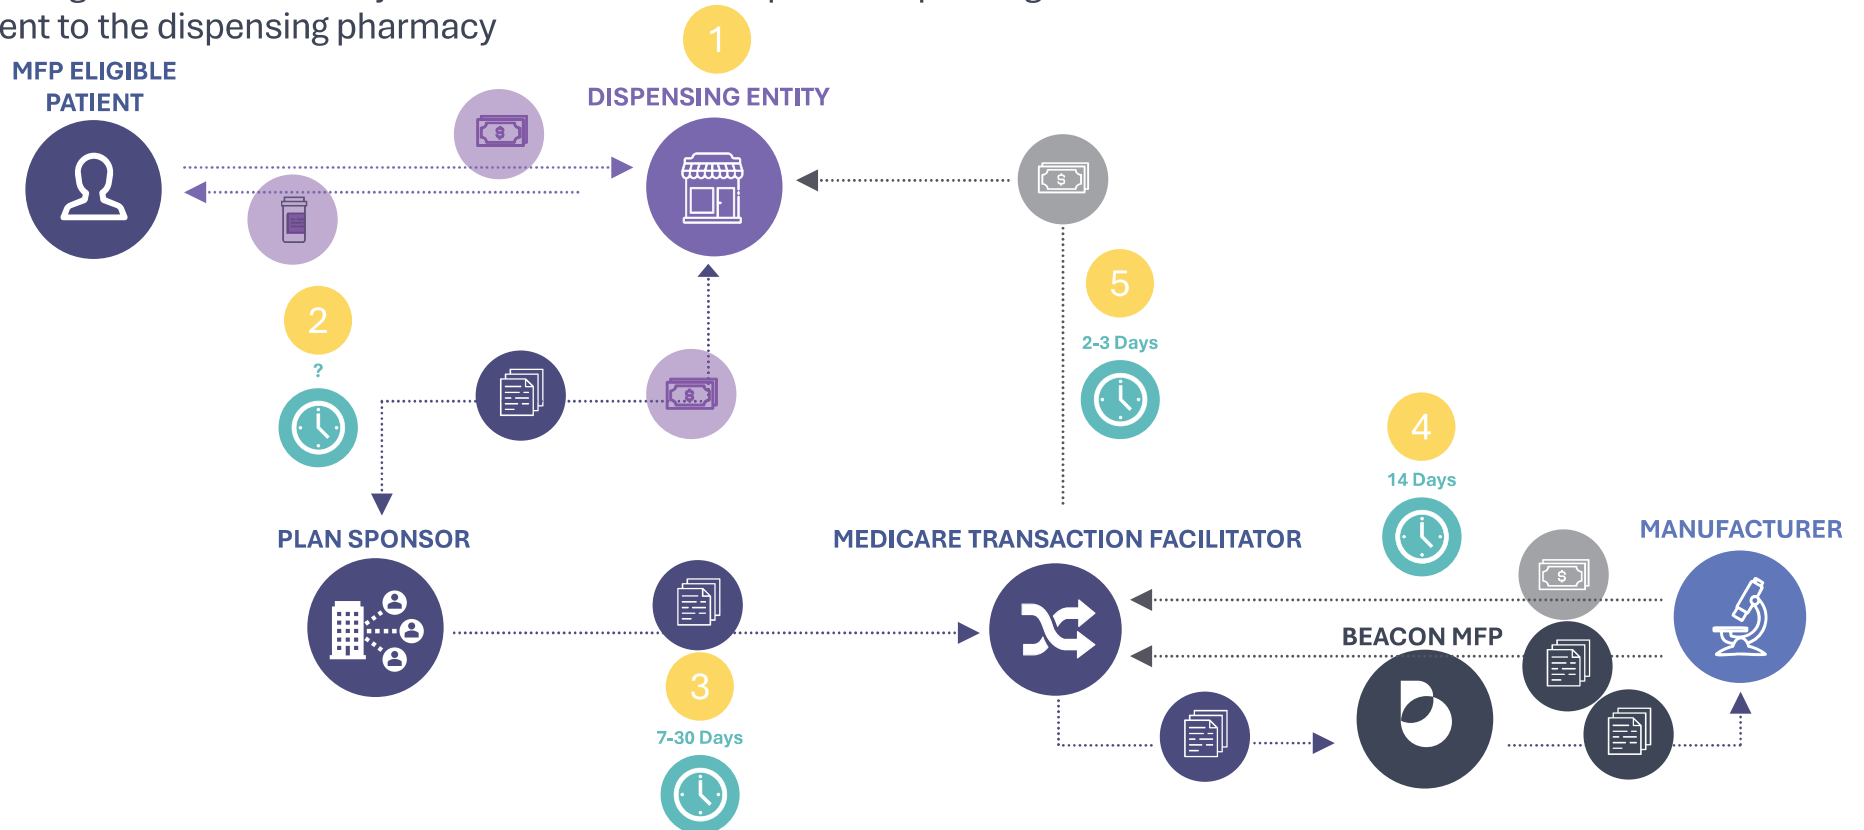

PRODUCTS SELECTED

2026	2027
ELIQUIS	AUSTEDO; AUSTEDO XR
ENBREL	BREO ELLIPTA
ENTRESTO	CALQUENCE
FARXIGA	IBRANCE
IMBRUVICA	JANUMET; JANUMET XR
JANUVIA	LINZESS
JARDIANCE	OFEV
NOVOLOG	OTEZLA
STELARA	OZEMPIC; RYBELSUS; WEGOVY
XARELTO	POMALYST
	TRADJENTA
	TRELEGY ELLIPTA
	VRAYLAR
	XIFAXAN
	XTANDI

MFP is Effectuated via a Rebate Model

Dispensing entities are initially reimbursed at the MFP plus a dispensing fee before the MTF transfers the MFP refund payment to the dispensing pharmacy

Beacon MFP vs. Beacon Rebate Model (340B)

	BEACON MFP 	BEACON REBATE MODEL (340B) 
WHY REGISTER?	Dispensing entities can view MFP rebate information in a user-friendly platform. Get real-time visibility into MFP rebate status and access good faith resolution tools.	Submitting claims data for 340B rebate payments, researching 340B rebate status, and reconciling 340B rebate payments
WHO CAN REGISTER?	Independent pharmacies, chain pharmacies, 340B covered entity owned pharmacies.	340B Covered Entities
IS DATA SUBMITTED?	Data is not submitted by pharmacies to the platform but instead is sourced from payer-data and eventually ingested from the MTF.	340B Covered Entities submit pharmacy and medical claims data directly in platform or through an SDK.
ARE PAYMENTS MADE BY BEACON?	No. MFP rebate payments are made by the MTF's Payment Module.	Yes. Beacon Rebate Model facilitates 340B rebate payments directly to a 340B covered entity's bank account with funds originated by manufacturers.
WHAT HAPPENS IF MY ENTITY DOES NOT REGISTER IN BEACON?	Should a dispensing entity opt not to register, the MFP rebate request will proceed with the MTF as planned.	Should a 340B covered entity opt not to register, the covered entity will not be able to access 340B rebate payments on products in scope of HRSA's 340B Rebate Model pilot.

Benefits of Beacon MFP to a Dispensing Entity

1	 Rebate Status	Access to rebate processing status
2	 Financial Status	Access to financial status
3	 Good Faith Inquiries	Submit and manage Good Faith Inquiries through the Beacon MFP Resolution Center
4	 340B De-Duplication	340B – related information and error codes
5	 Exportable Data	Access to exportable data through reporting and user-friendly mechanisms
6	 Support Resources	Access to customer support

Beacon MFP vs. Data Module

There are differences and similarities between what data is available by accessing Beacon MFP and CMS’s Data Module

	BEACON MFP	DATA MODULE
PROCESSING STATUS		
FINAL STATUS		
GOOD FAITH INQUIRIES		
PAYMENT AMOUNT		
COMPLAINTS		
BASIS OF PRICING		 (sometimes)
LEDGER BALANCES		

Determination of the Rebate Amount

The MFP rebate amount is determined by the pharmaceutical manufacturer depending on its understanding of the basis price applicable for the dispensing entity¹

¹ Section 40.4.1, October 2024 Final Guidance

How is the 340B rebate amount determined?

The 340B rebate model addresses the statutory prohibition of duplication between MFP and 340B while ensuring manufacturers fulfill their obligation to honor the lesser of the MFP or 340B price.

Scenarios¹

	WAC	340B PRICE	MFP	340B REBATE	MFP REBATE
 CLAIM 1 340B < MFP	\$500	\$100	\$250	\$400	\$0
 CLAIM 2 340B > MFP	\$500	\$300	\$200	\$200	\$100
 CLAIM 3 WAC = MFP; 340B < MFP	\$500	\$350	\$500	\$150	\$0

¹ All scenarios assume WAC: \$500, 10 claim units, claim is both 340B and MFP eligible, and the 340B entity has submitted sufficient purchase and claim data

Cross-walking CMS 835 with Beacon MFP Rebates

Dispensing entities should be aware of this cross-walk of Remittance Advice Remark Codes (RARC) and manufacturer indicated “justification codes”. These codes will always be preempted by a CARC code of 307 [1].

[1] A more comprehensive detailing of this crosswalk can be found on CMS’s Standard Companion Guide for Health Care Claim Payment/Advice (835), page 23.

Welcome to the GFI Wizard

The Resolution Center is powered by the GFI wizard that takes dispensing entities through a series of questions and instructions.

GFI's are initiated on an MFP rebate claim¹

Upon selection, a user selects from a set of GFI topics

Not seeing the GFI option? Certain GFI types may not be available depending on the status of the MFP rebate claim

Beacon MFP Frequently Asked Questions

Submitted prior to the webinar

- How long after dispensing will we get a rebate in days?
- Does Beacon serve as a manual reconciliation service for MFP claims?
- What technical support will be offered to pharmacies from Beacon?
- Will you please explain the appeal or complaint process when a PBM or manufacturer fails to complete the process as required?
- Can you sign up for Beacon after enrolling in MTF and if so, what is the deadline to enroll? How much does it cost?
- Will 340B rebate on same transaction result in an elimination of a paid MFP refund and how will money be recouped?
- Will my TPSE be able to see my data? I've heard that you won't be displaying prescription numbers. Why?
