

## The Ultimate Compliance and Savings Tool

Imagine having a comprehensive purchasing and inventory management solution that not only streamlines your operations but also helps guide your purchasing decisions to achieve compliance. SureCost is designed with you in mind, integrating seamlessly with all major wholesalers and secondary providers. This tool offers real-time data on drug prices, inventory levels, and compliance requirements, making it an indispensable asset for your pharmacy.

### What SureCost Can Do for Your Pharmacy:

- **Optimize Purchasing Decisions:** With SureCost, you can compare prices across multiple vendors, ensuring you always get the best deal. This capability is crucial for building a formulary that supports your pharmacy's financial health and operational efficiency.
- **Enhance Compliance:** The Primary Vendor Assurance Tool helps you stay compliant with contracts and agreements, while DSCSA capabilities ensure you meet all regulatory requirements. Compliance is no longer a daunting task but a streamlined process that integrates into your daily operations.
- **Save Time and Money:** By unifying your purchasing and inventory processes, SureCost can save your pharmacy thousands of dollars annually. Imagine the peace of mind that comes with knowing your operations are optimized and compliant, allowing you to focus more on patient care and less on administrative tasks.
