

# Government Relations that Protects Your Pharmacy

## Why Strong Advocacy isn't Optional, its essential!

- ▶ PBM, insurers, and chains are lobbying against you daily
- ▶ Reimbursement, fees, and regulations are decided without your input
- ▶ Profitability depends on outcomes in Washington and your state capital

**Buying power alone won't protect your business. Advocacy Will**

## What's At Stake

PBM Reform | Medicaid & Medicare Reimbursement | Provider Status

**And More! When Policy shifts, your margins shift.**

## We Make Advocacy Simple

- ▶ Real-time alerts on issues that matter
- ▶ Pre-written emails & call scripts
- ▶ Direct links to your legislators
- ▶ Clear direction on when to act

**Take action in minutes, not hours.**

## Ready to Get Started?

Take control of your business today and tomorrow.

Industry leader creating wins for independents

# Federal and State Impact

## Let IPC Do The Heavy Lifting

### IPC WILL

- » Monitor & influence hundreds of bills
- » Advocate at every level of government
- » Protect reimbursement & patient access
- » Lead national & state advocacy strategy

### YOU WILL

- » Take action when it counts
- » Join targeted grass roots campaigns
- » Strengthen your voice, without adding workload

**You Can't Afford to Stay Silent,  
Choose a GPO that protects your  
margins, your patients & your future.**

*"We weren't getting paid fairly by the companies managing Ohio Medicaid. IPC's advocacy directly affected not only our bottom line and our cash flow, but also directly affected patient care. When a pharmacist or business owner is not worried about making their wholesaler payment twice a month, they can concentrate better on having more programs for patients."*
