

## Community Messaging for Pharmacies

### In-store message

Pet medications may now be available through your local pharmacy. Ask our team how we may be able to help with select medications and preventatives for your dog or cat.

### Social media post

Your family includes your pets, too. We're excited to offer access to select pet medication options through our veterinary supply partner, PromoVet. Ask our pharmacy team for details next time you stop in.

### Email/newsletter blurb

We are always looking for new ways to serve our community. Through our partnership with PromoVet, we can now explore access to select veterinary medications and animal health products for local pet owners. If your dog or cat uses a recurring medication or preventative, ask our team whether we may be able to help.
